

AUSTRALIAN CHOCOLATE DIAMONDS  
BY ETERNITY DIAMONDS

LASER INSCRIPTION FOR SECURITY PROTECTION  
ETHICAL SUSTAINABLE DIAMONDS  
SOURCED FROM THE AUSTRALIAN ARGYLE MINE

Australian Chocolate Diamonds have been sourced from the Australian Argyle Diamond Mines in Western Australia. As the world's largest supplier of natural coloured diamonds, these mines are renowned for elegant champagne and signature pink diamonds. Eternity Diamonds ensures superior quality and brilliance is found throughout the collection.

The cutting parameters for white diamonds and Australian Chocolate Diamonds are significantly different; where white diamonds are cut to mask their colour, Australian Chocolate Diamonds are specifically cut to enhance their natural colour and unique characteristics. Our team of professional diamond cutters achieve a minimum grade of VG VG in symmetry and polish. Such precision in diamond cutting will capture and bring to life the true brilliance of your Australian Chocolate Diamond.

With the confidence of Independent Grading behind every piece, you will be assured in the knowledge your diamond has been certified and laser inscribed for added security. *My Diamond Story* allows your Australian Chocolate Diamond to tell its own story by recording each step of its journey to you.

Australian Chocolate Diamonds are guaranteed to be beyond conflict free. Producing only ethical and sustainable diamonds by complying with *The Kimberley Process Certification Scheme*, Australian Chocolate Diamonds are free from human rights abuses and ensures ongoing environmental sustainability.

Be proud in owning your very own unique and stunning piece of Australia's natural beauty.
