

COLOUR MY WORLD

We pride ourselves in being one of Australia's oldest family owned gemstone merchants.

The passion for colour gemstones runs deep within the Bolton Family, who are a third generation family owned business. Handed through the generations to Brett and Dee Bolton. Being a husband and wife team they bring a unique dynamic to business that has proved to be a great success for generations, with a family history that dates back to the 1950's, we are a solid company that is forever growing in the Gem Industry.

We have wonderful long term relationships with our mine owners who mine gemstones from all over the world. All of our stones are hand selected and cut to our specifications to ensure we are buying the best stones. Our extensive knowledge and solid relationships with the local miners and cutters in various gem bearing locations also enables us to buy the very best.
